DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3 and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The limitation “and wherein at two sides of said fine adjustment handle and said releasing plate have axles” (claim 1, lines 11-12) is indefinite because axles for the releasing plate are already defined on line 4 and axles for the fine adjustment handle are inferred on line 10. The quoted limitation is therefore a double inclusion and renders the claim indefinite as being misdescriptive because the fine adjustment handle and releasing plate only have a single pair of axles, respectively. Claims 3 and 4 are indefinite because they depend from an indefinite claim.

The following is suggested to obviate this rejection and render the claims allowable:

Claim 1, line 9, insert --said fine adjustment handle having axles-- after the comma;

Line 10, insert --said respective-- after “fitting”;

Line 12, change “have” to --are said respective--, and change “the same” to --the corresponding--.

If applicant should choose to amend claim 1 as indicated then the rejection would be overcome.

Allowable Subject Matter

Art Unit: 3677

Claims 1, 3 and 4 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
